Endpoint Product Feature Comparison

VIPRE ENDPOINT

The table below compares the features of all versions of VIPRE's Endpoint Security product line.

VIPRE Security Group provides a range of endpoint security products that protect Windows, macOS, Linux, Android, and Chromebook endpoints. Choose the right product for your environment based on your management preferences, security posture, and risk profile. This table provides a summary of which features each product has to aid in your selection.

Note: Feature availability and capabilities vary by operating system. See Platform Coverage section below for details.

Feature	Endpoint Security Server	Endpoint Security Cloud (ESC)	Endpoint Detection & Response (EDR)	Endpoint EDR+MDR
Hardening (Prevention)				
Vulnerability Management	N/A	✔	✔	✔
Patch Management	✔	✔	✔	✔
Unprotected Device Discovery	✔	N/A	N/A	N/A
Client Firewall	✔	✔	✔	✔
Removable Device Control (e.g. USB)	✔	✔	✔	✔
Early Blocking				
DNS Protection	✔	✔	✔	✔
Enhanced DNS Protection	✔	✔	✔	✔
Web Access Control	N/A	✔	✔	✔
Malicious URL Blocking	✔	✔	✔	✔
Malicious Content Blocking	✔	✔	✔	✔
Signature-based Detection	✔	✔	✔	✔
Deep Scanning				
Email Anti-Spam	✔	✔	✔	✔
Email Anti-Phishing	✔	✔	✔	✔
Email Anti-Malware	✔	✔	✔	✔
File/Attachment Scanning	✔	✔	✔	✔
On-Access Active Protection	✔	✔	✔	✔
Pre-execution Behavior Analysis	✔	✔	✔	✔
Malicious Traffic Detection (IDS)	✔	✔	✔	✔
Browser Exploit Prevention (via AAP)	✔	✔	✔	✔
Application Exploit Prevention (via AAP)	✔	✔	✔	✔

Feature	Endpoint Security Server	Endpoint Security Cloud (ESC)	Endpoint Detection & Response (EDR)	Endpoint EDR+MDR
Active Threat Hunting				
Runtime Behavior Analysis	✔	✔	✔	✔
Advanced Active Protection - AAP (ML Behavior Analysis)	✔	✔	✔	✔
Ransomware and Zero-day Detection	✔	✔	✔	✔
Enhanced Ransomware Detection	N/A	N/A	✔	✔
Runtime Script Analysis	N/A	N/A	✔	✔
Containment				
Process Blocking	✔	✔	✔	✔
Automated Malware Removal - Quarantine	✔	✔	✔	✔
False Positive Exclusion	✔	✔	✔	✔
Network Blocking	✔	✔	✔	✔
Device Isolation	N/A	N/A	✔	✔
Automated Ransomware Restore	N/A	N/A	✔	✔
Investigate and Remove				
Incident Management	N/A	N/A	✔	✔
AI Advisor	N/A	N/A	✔	✔
Event Analysis	N/A	N/A	✔	✔
MITRE ATT&CK Mappings	N/A	N/A	✔	✔
Root Cause Analysis	N/A	N/A	✔	✔
Threat Hunting	N/A	N/A	✔	✔
Remote Shell	N/A	N/A	✔	✔
Forensic File Analysis Sandbox	N/A	N/A	✔	✔
Forensic URL Analysis Sandbox	N/A	N/A	✔	✔
Remote Browser Isolation	N/A	N/A	✔	✔
Threat Detection APIs	N/A	✔	✔	✔
Incident Response APIs	N/A	N/A	✔	✔
Investigate and Remove				
Guided Remediation	✔	✔	✔	N/A
24/7 Technical Support	✔	✔	✔	✔
Managed Containment	N/A	N/A	N/A	✔
Managed Investigation	N/A	N/A	N/A	✔
Managed Forensic Analysis	N/A	N/A	N/A	✔
Managed Threat Hunting	N/A	N/A	N/A	✔
Managed Remediation	N/A	N/A	N/A	✔

Feature	Endpoint Security Server	Endpoint Security Cloud (ESC)	Endpoint Detection & Response (EDR)	Endpoint EDR+MDR
Management				
Centralized Policy Management	✔	✔	✔	✔
On-premise Management Server	✔	N/A	N/A	N/A
Cloud-based Roaming Support	✔	N/A	N/A	N/A
Simple and Intuitive Cloud-based Console	N/A	✔	✔	✔
Management Reporting	✔	✔	✔	✔
Management APIs	N/A	✔	✔	✔
Two-factor Authentication	N/A	✔	✔	✔
Platform Coverage*				
Windows Desktop	✔	✔	✔	✔
Windows Server	✔	✔	✔	✔
macOS	N/A	✔	✔	✔
Linux	N/A	✔	✔	✔
Android	N/A	✔	✔	✔
Chromebook	N/A	✔	✔	✔
Other Features				
Easy Agent Deployment	✔	✔	✔	✔
Incompatible Software Removal	✔	✔	✔	✔
Optional End-user Agent Control	✔	✔	✔	✔
Low CPU and Memory Usage	✔	✔	✔	✔
Partner Features	**† Feature requires partner-level VIPRE Site Manager**			
Multi-site Capable	✔	✔ †	✔ †	✔ †
Multi-tenancy †	N/A	✔	✔	✔
Self-service Tenant Creation †	N/A	✔	✔	✔
SSO to Tenant Sites †	N/A	✔	✔	✔
Shared Policies †	N/A	✔	✔	✔

**Note: Advanced EDR capabilities available on Windows, macOS, and Linux. Android and Chromebook receive core protection features.*
For detailed and up-to-date platform specifications and feature availability by OS, contact your VIPRE representative or visit vipre.com/platform-requirements

Whether you choose one of our Cloud-hosted products or our on premise self-hosted Server product, you will receive the very best in endpoint protection across your entire device estate: Windows, macOS, Linux, Android, and Chromebook.

Our Endpoint Detection & Response (EDR) product is designed for organizations with larger, more mature security teams managing diverse endpoint environments, whereas Endpoint Security Cloud is best suited for comprehensive protection with a minimum of fuss. For those who want the investigative capabilities of EDR but prefer to outsource incident management, EDR+MDR delivers high-quality Managed Detection & Response (MDR) on top of EDR. Customers with specific requirements such as air-gapped networks may wish to consider our Endpoint Security Server product. If in doubt, consult with one of our qualified partners or contact VIPRE directly to find out the product that is right for you.
